Term 3 Week 10

THANK YOU AND FAREWELL MRS ARCHER

I would like to take this opportunity to wish our most beautiful School Administrative Officer (SAO), Vicki Archer, all the very best for her retirement. Vicki started working at North Wagga Public School in 1994 and this Friday will be her last day. We have been so blessed to have her greet students, staff, parents and visitors at our school every day with her welcoming smile and her kind and caring nature, THANK YOU! We will miss her immensely. We hope Vicki and her husband, Bruce, enjoy a healthy, happy and very well deserved retirement.

Mrs Standley and the NWPS Staff

NOTES TO BE RETURNED

Kinder Riverina Environmental Education Centre- due Thursday 24
September

2020 Athletics Carnival - by Friday 25 September

Permission notes requiring payment will now have a return money envelope attached.

It would be greatly appreciated if you could please enclose the correct money and seal the ends of the envelope with tape.

Thank you.

One in three bites of food depend on bees. They pollinate many of the crops that we and our livestock eat.

Our bees are in trouble! Habitat destruction, pesticides and disease are killing them. Imagine a world with no almonds, blueberries, mangoes or avocados! How can you help? One thing you can do is encourage more bees into your garden by planting flowers that they love!

Visit the Wagga Wagga City Library this school holidays to pick up a FREE Make at Home: Bee Garden kit, containing three varieties of native Australian seeds, two compostable cups and planting instructions.

Visit bit.ly/holidaybees to get buzzy with more activities and fun facts.
